Dear Everyone,

Greetings of the Day!!!

If you forgot to logout from your respective lab systems, then your password can be misused. Before leaving the lab kindly log out (Internet/Systems) properly.

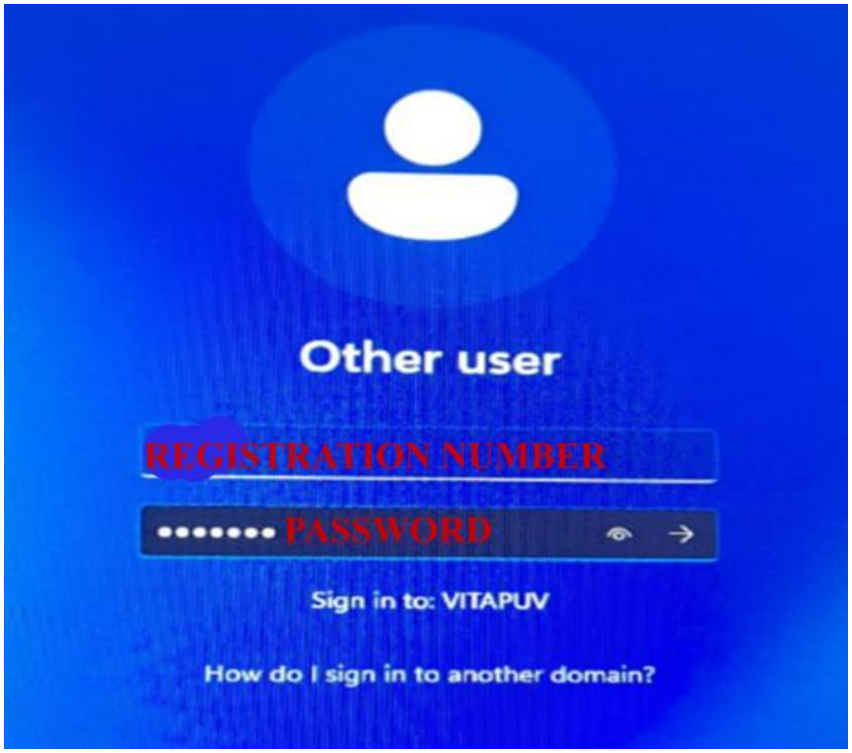

If your credentials are misused, then strict action will be taken.

WiFi/System Password change/reset procedure:

Login to any system in our university computer labs:

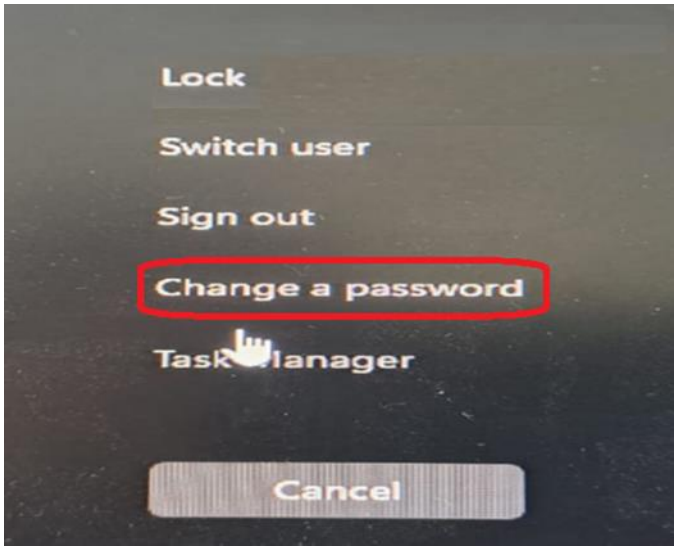

Step 1:

i. Login to your Lab system
ii. Enter your username and password
iii. After successful login

Step 2:

i. Press CTRL+ALT+DEL
ii. Select “Change a password”

Step 3:

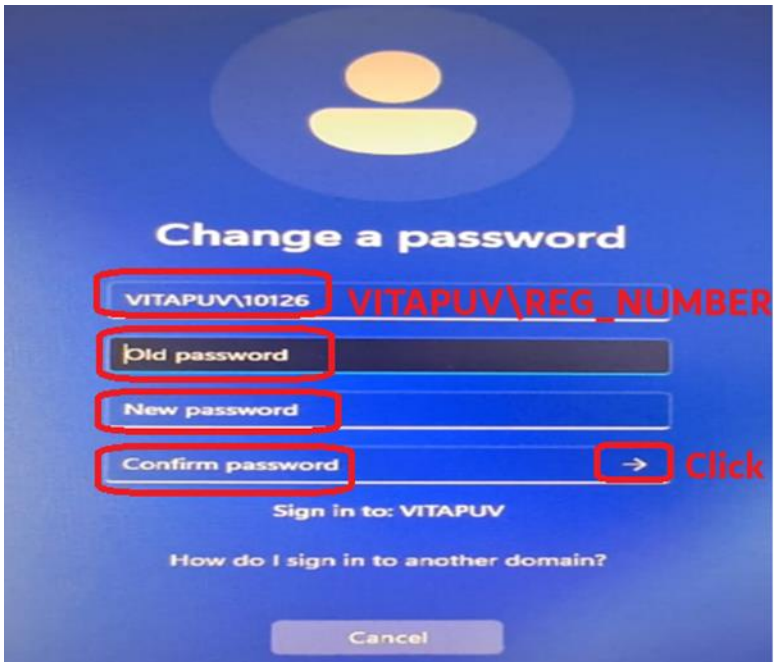

Enter “VITAPUV\Registration_Number”

Enter “Old Password”

Enter “New Password”

Enter “Confirm Password”

Click on to “ ”

New password Parameters:

1. Don’t use your registration_number/name as a password
2. Password should be a minimum of eight characters
3. Use a combination of Upper case, lower case, Numerical and special characters

Your password has been changed successfully.

Note: **Don’t share your credentials**
